Car Enthusiast

Music lover

Self-Improvement

# MARKO ZHENCHUK

## SOFTWARE DEVELOPER

### Profile

Motivated and goal-oriented beginner developer with a deep interest in algorithms, data structures, and modern technologies. I aim to become a professional who inspires others to learn and develop. Open to new challenges and ready to learn quickly.

### Education

2024

-

2025

#### Opole University of Technology

Computer Science

- Maintaining excellent academic performance

2023

-

2024

#### Lviv Polytechnic National University

Computer Science

- Completed the first year with distinction

### Experience

#### Perfect Pickling Recipes

**Description:** A responsive multi-page website with pop-ups, burger menu logic, and interactive elements. Securely hosted online with an SSL certificate.

**Technologies:** HTML, CSS, SCSS, JavaScript

**Role:** Frontend Developer, UI/UX Designer & Deployment Engineer. Fully designed, developed, and deployed the website, ensuring adaptability, interactivity, and secure hosting.

#### ShopDatabase Manager

**Description:** A backend console application written in C++ for managing a shop database. It connects to a MySQL database, executes SQL queries, and retrieves customer records for display.

**Technologies:** C++, MySQL, MySQL Connector/C++

**Role:** Backend developer

**Developed multiple adaptive websites (available on GitHub) and solved over 100 problems on LeetCode, enhancing skills in algorithms and data structures.**

### Consent for Data Processing
